Dresswall Grids is a new dimension / Dresswall Grids è una nuova dimensione

Lines that intertwine and spaces which are redefined. With Dresswall Grids, the surface becomes three-dimensional, a play of solids and voids that adds depth and structure to visual perception.

Each grid is a module, a basic element to multiply, orient, and configure to obtain unique textures, where light, graphics, and sound absorption meet and transform each other.

Grids, as the latest addition to the Dresswall ecosystem, is not a simple accessory, but an open system, capable of adapting and integrating with Lights, Visuals, and Acoustics. Designed for those who see spaces as a canvas to be modeled, Grids is a new dimension to explore and inhabit.

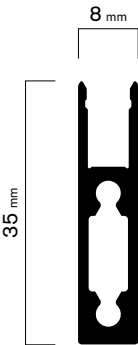

Linee che si intrecciano, spazi che si ridefiniscono. Con Dresswall Grids, la superficie diventa tridimensionale, un gioco di pieni e vuoti che aggiunge profondità e struttura alla percezione visiva. Ogni griglia è un modulo, un elemento-base da moltiplicare, orientare e configurare per ottenere trame uniche, dove luce, grafica e fonoassorbimento si incontrano e si trasformano.

Ultima aggiunta all'ecosistema Dresswall, Grids non è semplice accessorio, ma un sistema aperto, capace di adattarsi e integrarsi con Lights, Visuals e Acoustics. Pensato per chi vede negli spazi una tela da modellare, Grids è una nuova dimensione, da esplorare e abitare.

GR8/35

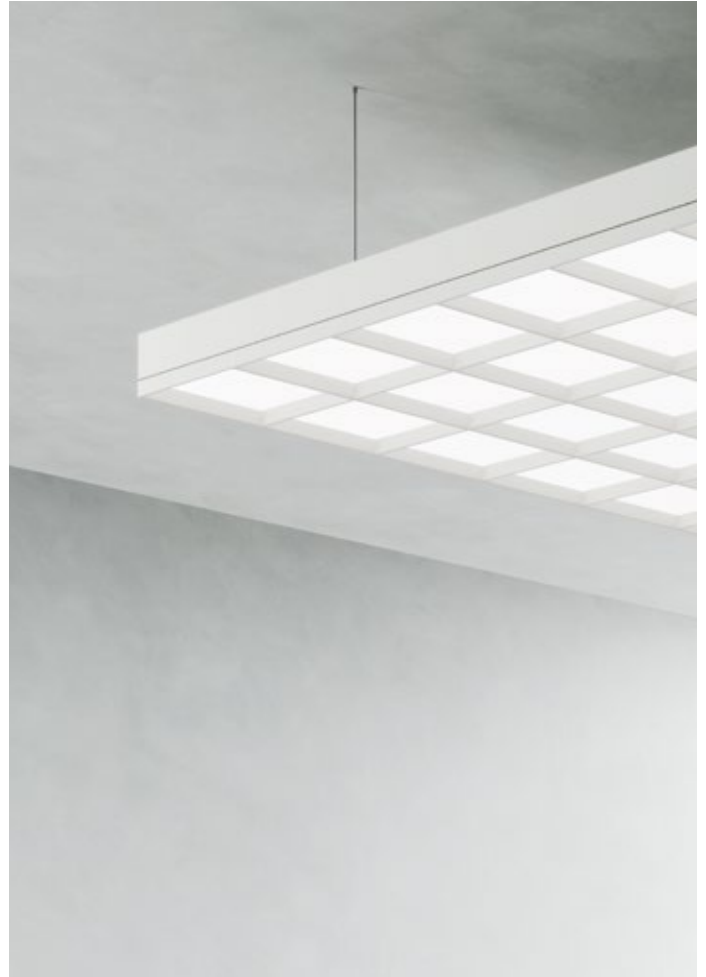

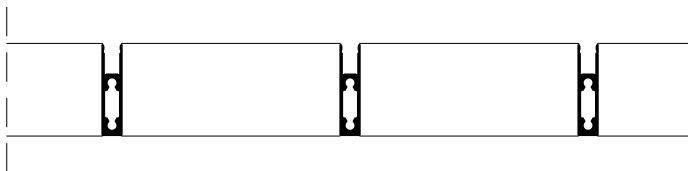

- Extruded aluminium profile, rectangular section with 8 mm Width and 35 mm Height
- Weight 0.373 kg/mt
- Grid sizeable on project

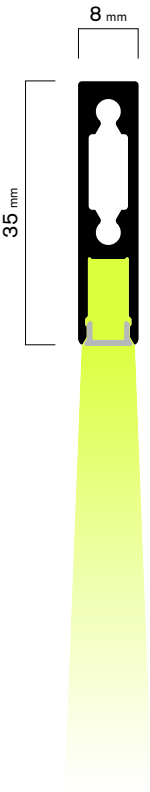

- Profilo estruso in alluminio sezione rettangolare base 8 mm altezza 35 mm
- Peso 0,373 Kg/m
- Griglia dimensionabile a progetto

GR8/35-L

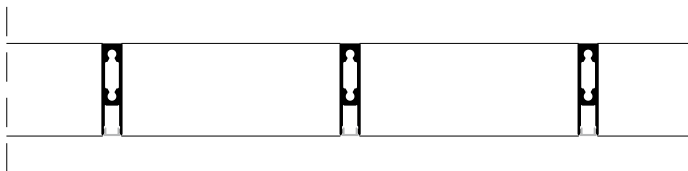

- Extruded aluminium profile, rectangular section with 8 mm Width and 35 mm Height
- Weight 0.373 kg/mt
- Grid sizeable on project
- Dimmable LED light manageable via smart device app

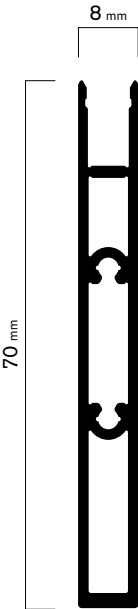

- Profilo estruso in alluminio sezione rettangolare base 8 mm altezza 35 mm
- Peso 0,373 Kg/m
- Griglia dimensionabile a progetto
- Luce LED dimmerabile con app gestibile da dispositivo smart

GR8/70

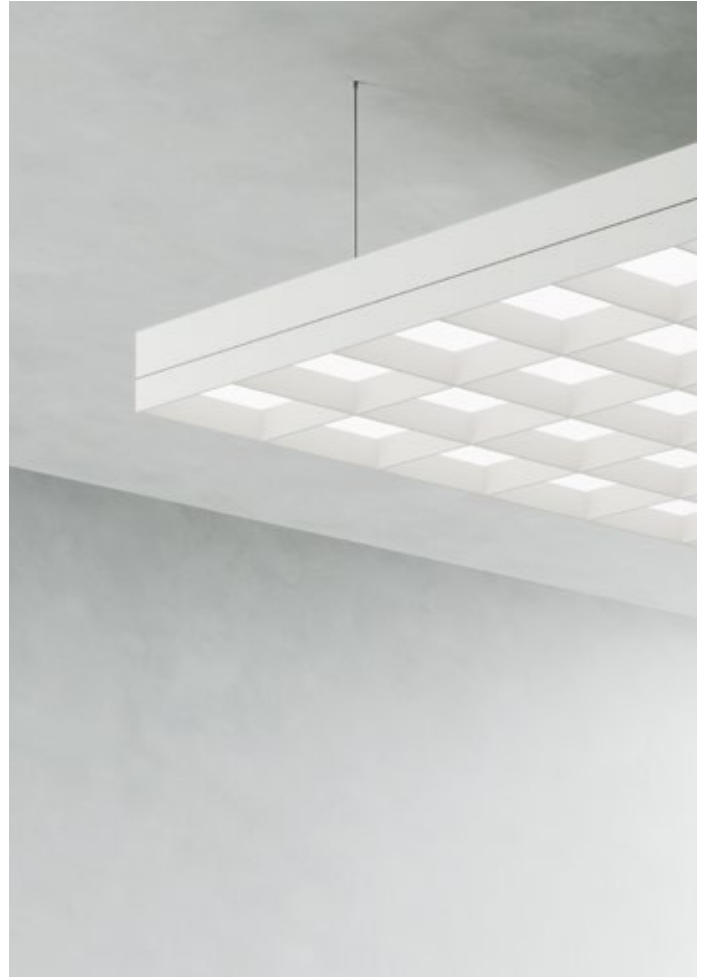

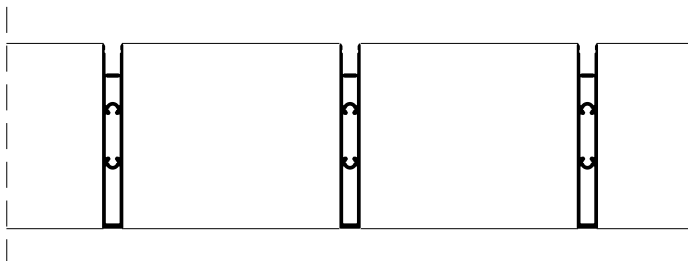

- Extruded aluminium profile, rectangular section with 8 mm Width and 70 mm Height
- Weight 0.648 Kg/mt
- Grid sizeable on project

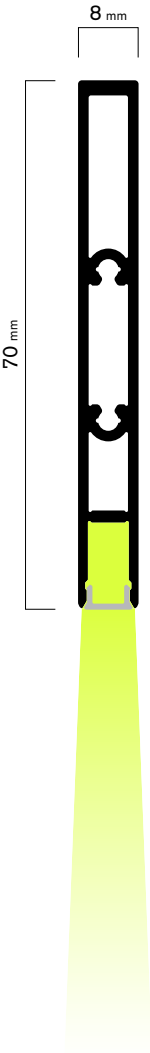

- Profilo estruso in alluminio sezione rettangolare base 8 mm altezza 70 mm
- Peso 0,648 Kg/m
- Griglia dimensionabile a progetto

GR8/70-L

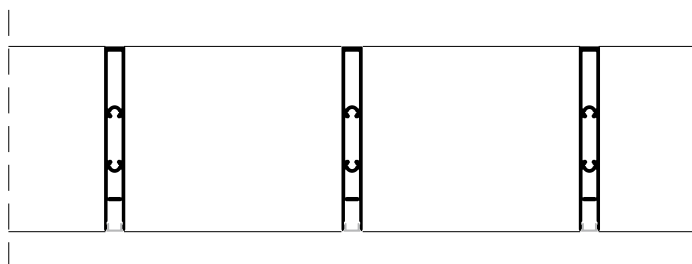

- Extruded aluminium profile, rectangular section with 8 mm Width and 70 mm Height
- Weight 0.648 Kg/mt
- Grid sizeable on project
- Dimmable LED light manageable via smart device app

- Profilo estruso in alluminio sezione rettangolare base 8 mm altezza 70 mm
- Peso 0,648 Kg/m
- Griglia dimensionabile a progetto
- Luce LED dimmerabile con app gestibile da dispositivo smart

Depth is in the eye of the beholder / La profondità è negli occhi di chi guarda

The modularity of Dresswall Grids provides designers with a new tool to enhance the perception of the space. The overlapping profiles create a play of layers and intersections, enriching the surface with added depth and dynamic textures.

Thanks to its flexibility, Grids—combined with Lights, Visuals, and Acoustics—adapts to any design vision. The result is a mutable structure that catches the gaze, modulates light, and infuses spaces with a distinctive character and unexpected acoustic comfort.

La modularità di Dresswall Grids offre ai designer un nuovo strumento per amplificare la percezione dello spazio. La sovrapposizione di profili crea un gioco di livelli e intersezioni che arricchisce la superficie con nuove profondità e trame dinamiche.

Grazie alla sua flessibilità, Grids combinato con Lights, Visuals e Acoustics, si adatta a qualsiasi visione progettuale. Il risultato è una struttura mutevole che cattura lo sguardo, trasforma la luce e dona agli ambienti un carattere unico e comfort acustico inaspettato.

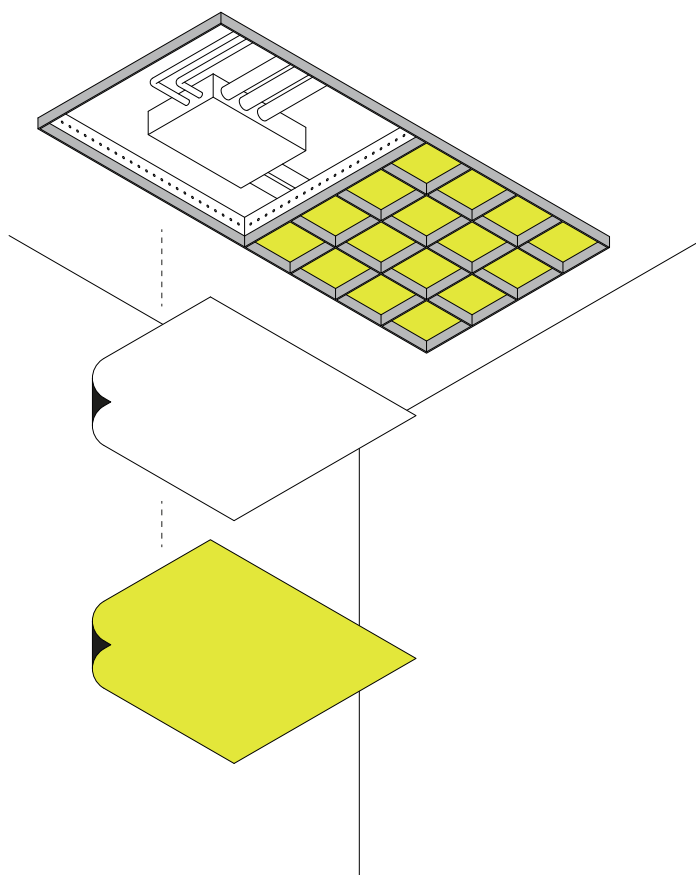

Integration / Integrabilità

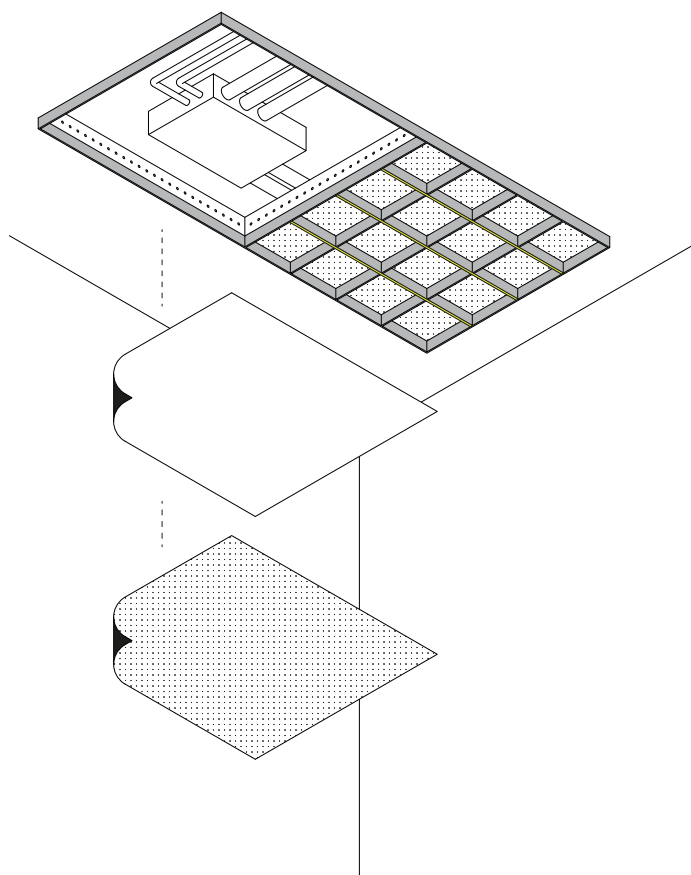

The system introduces new possibilities for depth, lighting, and sound absorption. Grids' profiles can be integrated with various finishes and materials, creating three-dimensional textures that redefine spatial perception. As with every element of the Dresswall ecosystem, Grids adapts to the project's needs—not the other way around.

We developed Dresswall Grids to be modular and highly versatile. In terms of lighting, the system can accommodate LED solutions embedded within the profiles, generating new visual depths and unique spatial dynamics. Intrinsically paired with Dresswall Lights, Visuals, and Acoustics, the Grids system enhances distinctive plays of light and shadow. Contact us to explore the limitless customisation possibilities offered by Dresswall.

-  Fabric / Tessuto
-  Sound-absorbing panel / Pannello fonoassorbente

Il sistema aggiunge nuove possibilità di profondità, luce e fonoassorbimento. I profili di Grids possono essere integrati con diverse finiture e materiali, creando trame tridimensionali capaci di ridefinire la percezione dello spazio. Come ogni elemento dell'ecosistema Dresswall, Grids si adatta alle necessità del progetto, non viceversa.

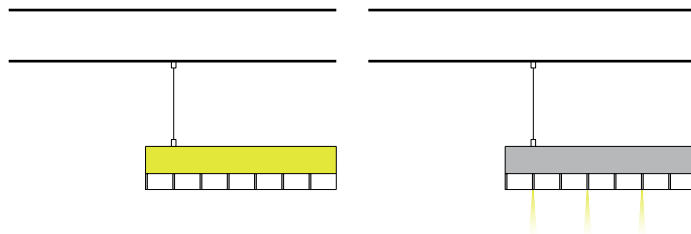

Abbiamo sviluppato Dresswall Grids per essere modulare ed estremamente versatile. In termini di illuminazione, il sistema può accogliere soluzioni a LED inserite nei i profili, generando nuove profondità visive e dinamiche spaziali uniche. Il sistema Grids, intrinsecamente accostato a Dresswall Lights, Visuals o Acoustics, enfatizza giochi di luci e ombre singolari. Contattaci per scoprire le infinite possibilità di personalizzazione offerte da Dresswall.

The ultimate lighting solution, for any kind of space / La soluzione per l'illuminazione definitiva, in qualsiasi spazio.

Dresswall Lights isn't just like any other light source: it's lightweight, versatile, and super-customizable.

Dresswall Lights works through high-power LED modules enabling one-of-a-kind lighting capabilities: intense, uniform brightness, with no limits in surface nor size. All of this is ready out of the box, with no need for tools or installation skills.

Our custom LED technology has been designed to provide remarkable energy savings (i.e., 70% less than neon lighting) and cost efficiencies.

Combining the customizable features of Dresswall Lights and the ability to print on a wide variety of Dresswall Visuals surfaces, we place no limits on lighting.

We realize your ideas through six-color sublimation printing, characterized by optimal yield and brilliant colors that penetrate the fiber, making the fabric extremely resistant to handling, fading, wear, UV rays, and exposure to atmospheric agents.

With Dresswall you have the freedom to choose the perfect texture for any use, color, and pattern to manifest your vision.

Dresswall Lights non è una fonte d'illuminazione qualsiasi: è leggero, versatile e super-personalizzabile.

Dresswall Lights funziona grazie a moduli LED ad alta potenza che consentono di ottenere un'illuminazione unica nel suo genere: una luminosità intensa e uniforme, senza limiti di dimensione e forma. Tutto questo senza bisogno di attrezzi o competenze di installazione.

La nostra tecnologia LED personalizzata è stata progettata per garantire un notevole risparmio energetico (i.e., consuma il 70% in meno rispetto all'illuminazione al neon) ed efficienza dei costi.

Combinando le caratteristiche personalizzabili di Dresswall Lights e la possibilità di stampare su moltissime superfici di Dresswall Visuals non mettiamo limiti all'illuminazione.

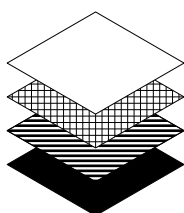

Realizziamo le vostre idee tramite una stampa sublimatica a sei colori, caratterizzata da una resa ottimale e da colori brillanti, che penetrano nella fibra, rendendo il tessuto estremamente resistente alla manipolazione, allo sbiadimento, all'usura, ai raggi UV e all'esposizione agli agenti atmosferici.

Con Dresswall hai la libertà di scegliere il tessuto e la texture perfette per qualsiasi uso, colore o motivo per manifestare al meglio la tua visione.

Dresswall Lights is reliable, with no light flickering and an optimal color/temperature yield. Thanks to our bluetooth wireless connection protocol, you can customize the light source from your smartphone for any of your Dresswall: whether you need to quickly dim it, adjust its warmth through dynamic white technology (3000-5000K), or leverage RGB controls to turn the color on. The Casambi app, available for Android and iOS, also allows you to set timers for switching on and off, and many other personalized actions.

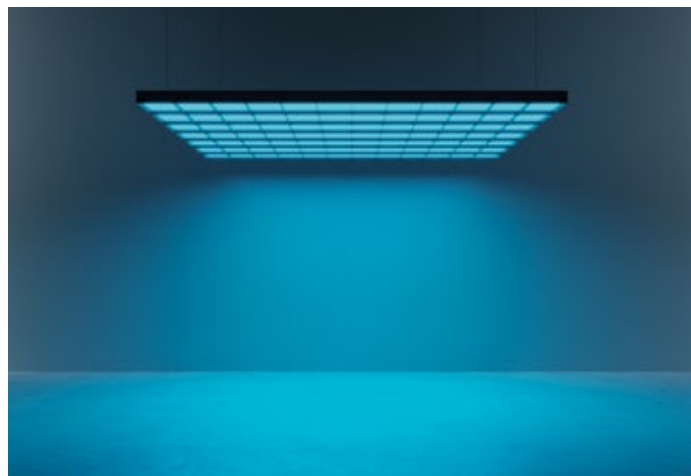

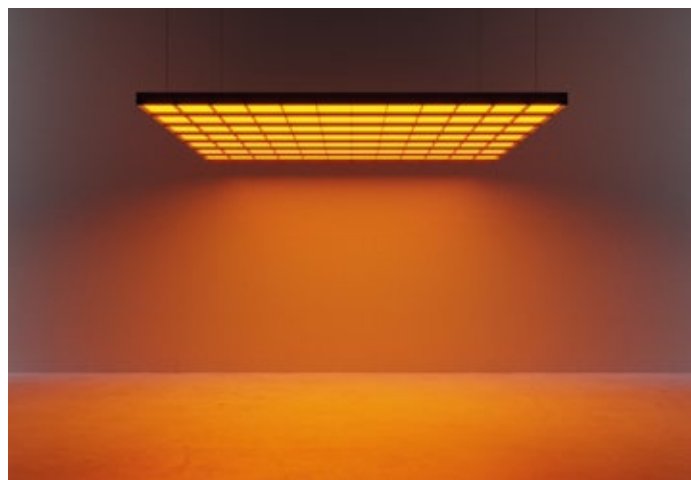

Dresswall Lights è affidabile, senza sfarfallii e con una resa ottimale in termini di colore/temperatura. Grazie al protocollo di collegamento bluetooth, è possibile personalizzare le caratteristiche di qualsiasi Dresswall dal proprio smartphone: che si tratti di dimmerare rapidamente la luce, di regolarne il calore (3000-5000K) o di sfruttare i controlli RGB per la resa del colore. L'app Casambi, disponibile per Android e iOS, permette inoltre di impostare timer per l'accensione e lo spegnimento e molte altre azioni personalizzate.

Sound-absorption and beyond / Fonoassorbenza e oltre

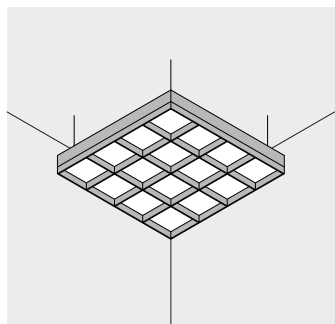

As all the products in the Dresswall ecosystem, Dresswall Grids can also be combined with Dresswall Acoustics, equipping it with sound absorption capabilities.

Leave it as is to give your spaces optimal sound absorption, or combine Dresswall Grids with Lights or Acoustics to turn every space into a pleasingly immersive experience.

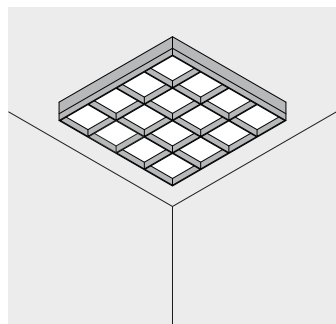

Come tutti i prodotti dell'ecosistema Dresswall, anche Dresswall Grids può essere abbinato a Dresswall Acoustics, dotandolo di capacità di assorbimento acustico.

Lasciatelo così com'è per dare ai vostri spazi un assorbimento acustico ottimale, oppure combinate Dresswall Grids con Lights o Acoustics per trasformare ogni spazio in un'esperienza perfetta.

The Dresswall Ecosystem / L'ecosistema Dresswall

Because people's dreams are limitless, we exist to give shape to their ideas and make them possible. That's why The Origin of Possibilities is our rallying cry — the Dresswall Way.

At Dresswall we bring to life solutions that respond to the present and transform the future.

We provide an ecosystem of products and services, that redefine spaces and expectations — built around our partners' needs.

Design

For those who Redefine Spaces

A first range of solutions aimed at providing meaning to spaces. Dresswall Stripes belongs to this cluster, alongside our lighting, sound absorption and health solutions.

Communication

For those who Shape Expectations

Where it all began — a second range of solutions aimed at telling stories. Perfectly suited for indoor and outdoor activations, these solutions can enhance a company's culture just as well as they can elevate a brand's experience for its audience.

Get in touch to know more about how we can make your ideas possible.

I sogni delle persone non hanno limiti — la nostra ragion d'essere si fonda sulla volontà di dare loro forma e renderli possibili. Per questo L'origine delle possibilità è il nostro motto — la nostra via.

In Dresswall diamo vita a soluzioni che rispondono al presente e trasformano il futuro.

Il nostro è un ecosistema di prodotti e servizi che ridefiniscono gli spazi e le aspettative delle persone — costruiti intorno ai bisogni dei nostri partner.

Design

Per coloro che ridefiniscono gli spazi

Un primo ventaglio di soluzioni pensate per dare significato agli spazi. Dresswall Stripes si inserisce in questo contesto insieme alle nostre soluzioni per l'illuminazione, la fonoassorbimento e la salute degli spazi.

Comunicazione

Per coloro che ridefiniscono le aspettative

Dove tutto è cominciato — un secondo portafoglio di soluzioni pensate per raccontare al meglio una storia. Studiate per attivazioni da interni ed esterni, queste soluzioni sono tanto versatili da poter supportare un'impresa nel rinviare la propria cultura aziendale, fino all'elevare l'esperienza di marca per i propri clienti. Contattaci per sapere di più di come possiamo trasformare le tue idee in realtà.
